# COVID-19 VACCINES

NOT SURE YET?

All vaccines being given have been authorized by the Food and Drug Administration (FDA).

All available COVID-19 vaccines have been carefully tested and analyzed.

More than half of all U.S. adults have already received their COVID-19 vaccine.

COVID-19 vaccines are free. Health insurance is not required.

Side effects are normal, mild and should go away in a few days.

You will not get COVID-19 from the vaccine.

No vaccine is 100% effective, but this will give the best COVID-19 protection.

If you've already had COVID-19, getting the vaccine will add extra protection.

More vaccinations for COVID-19 mean a chance to return to normal.
